GE Healthcare

Continuity™
Technology Obsolescence Protection
Keeping imaging platforms current can help enhance clinical capabilities, staff performance and **extend** the lifecycle of assets.
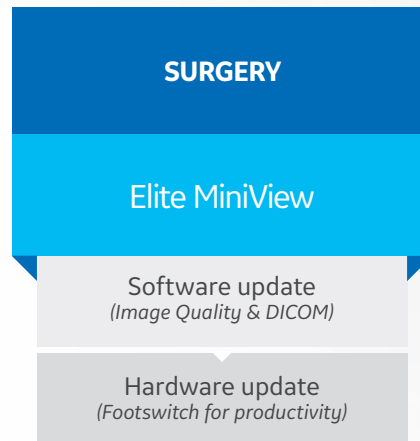

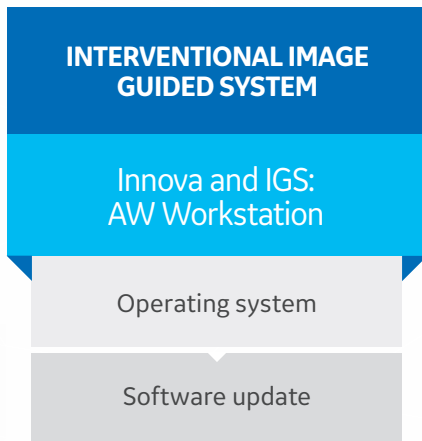

We can help

In today's world, technology changes at a rapid rate. Enhancements are great for expanding clinical capabilities and meeting the needs of today's patients, but keeping up with the most recent clinical applications can be time consuming to manage and difficult to budget.

Continuity program from GE Healthcare helps ensure your technology investments remain current over the lifecycle of your GE Imaging Systems. One such Continuity program allows you to receive regular computing system hardware and operating software upgrades that helps keep your imaging equipment working at modern performance, provide a platform for new clinical capabilities and help extend the lifecycle of your assets. Plus, with predictable, lower costs, you gain the peace of mind knowing you can add value to your investment and provide the latest care for your patients.

Key computing system hardware

Continuity Offering

Software updates including operating system

Compatible systems & content

INTERVENTIONAL IMAGE GUIDED SYSTEM
Innova and IGS: AW Workstation
Operating system
Software update

SURGERY
Elite MiniView
Software update *(Image Quality & DICOM)*
Hardware update *(Footswitch for productivity)*

Prepare your imaging platform for a changing environment

Deliver high-quality care

- Be ready to expand clinical capabilities when upgrades become available
- Enable growing and diversified examination needs
- Help enhance staff and patient satisfaction

Optimize asset lifecycle

- Protect your investment by keeping your assets current
- Efficiently manage technology upgrades
- Prepare for changing regulations

Enhance financial performance

- Simplify budgeting
- Benefit from predictable, lower upgrade costs
- Help improve asset planning capabilities

Imagination at work

About GE Healthcare

GE Healthcare provides transformational medical technologies and services to meet the demand for increased access, enhanced quality and more affordable healthcare around the world.
GE works on things that matter - great people and technologies taking on tough challenges. From medical imaging, software & IT, patient monitoring and diagnostics to drug discovery, biopharmaceutical manufacturing technologies and performance improvement solutions, GE Healthcare helps medical professionals deliver great healthcare to their patients.
