Helping to improve operational efficiency and reducing cost
through a secure healthcare professional social network.
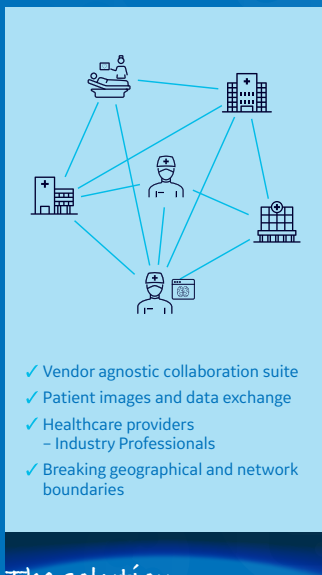

GE

Meet East Midlands Radiology Consortium

6.5M people in the region

1.6B images stored

1.6M Studies acquired per annum

JB49535XE

The solution they deployed

✓ Vendor agnostic collaboration suite
✓ Patient images and data exchange
✓ Healthcare providers – Industry Professionals
✓ Breaking geographical and network boundaries

And what they achieved

PRODUCTIVITY
Reduced time to send and receive information (no CD burning, no postage, reduced hands-on time)

TRACEABILITY
Complete visibility on audit trail

FINANCIAL
Estimated
>50k GBP
annual reduction in data exchange costs for one Trust in the EMRAD consortium

Ready to know more?
Hear about their experience:

The adoption of GE's secure vendor agnostic collaboration app is helping our data protection team to disclose information in relation to legal requests with professionals outside of the EMRAD consortium.

It's *quick and simple*; the software is straightforward to access and *patient data can now be sent in minutes compared previously to days.*

Paula Hill,
Data Protection Administration Office Manager Patient Records Services, ICT Services, Nottingham University Hospitals NHS Trust
