

## Online Product Training for Your Entire Staff

### Monitoring Systems Training – Site Licenses Now Available

#### Does Your Facility Have Multiple Monitoring Systems?

We've made it easier to train your entire staff by bundling the following training courses.

#### Site License Details

- A single site license will be available for one year and will provide complete access for all clinicians at your site.
- All offerings are available online 24 / 7 access and are designed for pre-installation, new hire, and refresher training on a product family.
- Continuing education credits are available as applicable.

#### CARESCAPE\* Central Station Online Clinical Training

This course is designed to give the user an introduction to the features and operations of the CARESCAPE Central Station (CSCS). It will also give an overview of the various telemetry transmitters or transceivers that you may be using in conjunction with the CSCS. It also covers proper skin preparation and lead placement.

Systems included in this clinical web course:

- CARESCAPE Central Station

Part Number: 2020786-349 Cost: \$300

#### CARESCAPE\* ESPv2 Patient Monitor Series Online Clinical Training

This course is designed to give you an introduction to the features and operation of the CARESCAPE modular monitors with ESPv2 software.

Systems included in this clinical web course:

- CARESCAPE B450
- CARESCAPE B650
- CARESCAPE B850
- Alarm Fatigue: Overview and Trends
- CO2 - Making the Most of Metabolic Monitoring

Part Number: 2020786-255 Cost: \$1,885

#### CIC PRO Monitor Series Online Clinical Training

Topics include identification of the components of the GE Healthcare Clinical Information Center Pro (CIC Pro) System: screen components, strip printing, alarm features and management techniques, viewing of patient data, events, trends and vital signs, using the on-screen ECG waveform calipers feature and individualization of screens per user preference.

Systems included in this clinical web course:

- CIC PRO

Part Number: 2020786-292 Cost: \$595

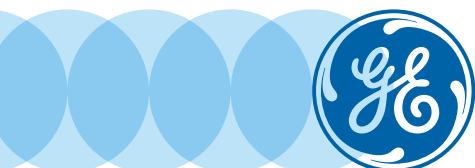

#### ApexPro\* Telemetry Monitor Series Online Clinical Training

Topics include content covered in the ApexPro CH/FH/ v4 telemetry courses, screen components, strip printing, alarm features and management.

Systems included in this clinical web course:

- ApexPro CH
- ApexPro FH
- ApexPro v4

Part Number: 2020786-293 Cost: \$1,295

### Dash\* Monitor Series Online Clinical Training

Topics include:

- Admitting and discharging patients to the Dash monitor
- Alarm overview and customization
- Accessing menu options
- Basic pressure monitoring menu and features
- Basic and pulmonary artery pressure monitoring menu and features, including: pulmonary artery wedge and insertion, cardiac output and calculations

Systems included in this clinical web course:

- Dash Version 4 Basic
- Dash Version 4 Invasive
- Dash Version 6 Basic
- Dash Version 6 Invasive

Part Number: 2020786-289    Cost: \$1,295

### Solar\* 8000 i/m Monitor Series Online Clinical Training

Topics include:

- Component overview
- Admitting and discharging patients on the monitor
- Alarm overview and customization
- Accessing menu options for non-invasive parameters
- Procedural steps for invasive pressure monitoring which include pulmonary arterial wedge and cardiac output as well as Neonatal scenarios. Screen displays are used when possible so the learner can relate to the neonatal environment with regard to the monitor.

Systems included in this clinical web course:

- Solar 8000i Version 5 Invasive
- Solar 8000i Version 5 NICU
- Solar 8000m Basic
- Solar 8000m Invasive

Part Number: 2020786-290    Cost: \$1,295
